Module 7 – Prioritisation Exercise

Prioritising Requirements Exercise

Decide on your 'MoSCoW' for each of the requirements provided. Remember that Must Have requirements will create your *Minimum Usable Subset* for an early release. Without all the Must Haves, it would be unviable or unsafe to release anything. The difference between Should Haves and Could Haves will be in the value or impact, or the difficulty or ease of a workaround. How close is your output to the 60:20:20 guideline for effort involved? Consider what value each of the requirements add to the overall business objective?

For this exercise, you will need to take on the role of the Business Ambassador and Business Visionary to ensure that the MoSCoW prioritization is business driven but also consider the other roles perspectives.

You will need to make some assumptions in order to complete this exercise but in reality, you would be clarifying your understanding with the other roles and a Facilitated Workshop would be an ideal way to do this.

Exercise objectives:

As the delivery and balance of the MoSCoW Prioritised List is essential to the success of an Agile project, it is important to understand prioritization. Also it is useful to have experienced prioritization from perspectives other than your usual job role.

Important: For the purposes of this exercise the Wont Haves have been removed. You are only prioritizing the Must, Should and Could Have requirements.

The list of requirements is on the next page.

Module 7 – Prioritisation Exercise

Prioritisation Exercise - Millers Marmalade

REQUIREMENTS LIST FOR THE NEW WEB SITE (Total 62 days effort)

No.	Requirement	MoSCoW	Estimated Effort
As a <role> I want <something> so that <outcome>			
1	As a customer I want to order marmalade so that I can specify what I want to receive		2
2	As a customer I want to change an existing open order (i.e. size, amount) so that I can ensure my order is what I actually want		3
3	As a customer I want to remove some marmalade from an existing order so that I can ensure my order is what I actually want		4
4	As a customer I want to choose to have the order gift wrapped so that I can send it as a present already wrapped to someone else		2
5	As a customer I want to browse product information (e.g. ingredients) so I can make sure the ingredients are healthy / will not cause an allergic reaction		5
6	As a customer I want to see a price list/catalogue of marmalades so I know what my order would cost		2
7	As an I.T. manager I want to ensure that the transaction over the web is secure so that customers have confidence in using our website		3

Module 7 – Prioritisation Exercise

No.	Requirement	MoSCoW	Estimated Effort
8	As a customer I want to search and filter by size, price and type of marmalade so I can quickly search for the exact item(s) I want to order		4
9	As a Customer Services Manager I want to allow a visitor to sign up to receive a newsletter so that we can provide more information in order to encourage further sales		2
10	As a Customer Services Manager I want to have a customer feedback facility so that we can act on negative comments quickly		1
11	As a Head of Operations I want to promote special offers so that we can easily draw these to our customers attention		2
12	As a customer I want to be able to enter a separate invoice address so that I can send marmalade to addresses other than my own		4
13	As a customer I want to be able to enter alternative delivery addresses so that I can get my orders delivered to friends and family, and to my workplace		1
14	As an Owner of Millers I want to provide information about Millers ('about us') so that we can promote the Millers family image		1
15	As an Owner of Millers I want to allow payment by credit card/debit card so that we avoid cheque handling, which will cost us more money per transaction		4
16	As a Head of Operations I want to automatically authorise credit card payment so that the order payment process needs the least possible number of Staff		3

Module 7 – Prioritisation Exercise

No.	Requirement	MoSCoW	Estimated Effort
17	As a customer I want to have other payment methods (e.g. cheque) so that I can buy marmalade even if I do not have a credit / debit card		2
18	As a Fulfillment Manager I want to notify the customer that the order has been dispatched so that the customer knows their order is on its way		2
19	As a customer I want to create, view and amend my customer details so that my details are always correct		5
20	As a customer I want to delete my customer details so that I will no longer receive marketing information from Millers		2
21	As a Head of Account Management I want to provide a trade area sign on facility so that my large order customers can process their orders as quickly as possible		2
22	As a customer I want to receive discounts related to size of order so that I can see I am getting good value on larger orders		3
23	As a customer I want to have a choice of delivery times so that I can be sure I am at home to take delivery		3

Module 7 – Prioritisation Exercise

Prioritisation Exercise - Millers Marmalade - Suggested Answer

Suggested Prioritisation is indicated below. Please note that this is not an absolute black and white exercise. You may come up with priorities that are different, that is fine as long as you can justify why. For the Practitioner exam any questions around priorities are far less subjective. This exercise is just to get you thinking about applying the MoSCoW technique.

Minimum Useable Subset = 36 days estimated effort 58%

Should Haves = 13 days estimated 21%

Could Haves = 13 days estimated 21%

No.	Requirement	MoSCoW	Estimated Effort
As a <role> I want <something> so that <outcome>			
1	As a customer I want to order marmalade so that I can specify what I want to receive	M	2
2	As a customer I want to change an existing open order (i.e. size, amount) so that I can ensure my order is what I actually want	M	3
3	As a customer I want to remove some marmalade from an existing order so that I can ensure my order is what I actually want	M	4
4	As a customer I want to choose to have the order gift wrapped so that I can send it as a present already wrapped to someone else	C	2
5	As a customer I want to browse product information (e.g. ingredients) so I can make sure the ingredients are healthy / will not cause an allergic reaction	M	5
