

A DSDM Structured Timebox

Free format Timebox

- Reflects style used by other popular Agile approaches e.g. Scrum Sprint
- Used when DSDM Structured Timebox not possible or not helpful
- Starts with Kick-off and finishes with Close-out
- In between, any number of formal or informal review points
- Solution Development Team pick up one or more products or requirements/User Stories and evolve these iteratively until completed and meet agreed acceptance criteria SDT then pick up the next product or requirement/User Story and repeat the process
- Free format style relies on Business Ambassador being available consistently to review and provide feedback on ongoing basis
